Research Papers

Borehole temperatures, climate change and the pre-observational surface air temperature mean: allowance for hydraulic conditions
L. Bodri and V. Cermak 265
A phytolith index as a proxy of tree cover density in tropical areas: calibration with Leaf Area Index along a forest–savanna transect in southeastern Cameroon
L. Bremond, A. Alexandre, C. Hély and J. Guiot 277
Pre-industrial-potential and Last Glacial Maximum global vegetation simulated with a coupled climate-biosphere model: diagnosis of bioclimatic relationships
M. Crucifix, R.A. Betts and C.D. Hewitt 295
Primary production of Inner Mongolia, China, between 1982 and 1999 estimated by a satellite data-driven light use efficiency model
S. Brogaard, M. Runnström and J.W. Seaquist 313

Discussions

Comment on "Rivers, runoff, and reefs" by McLaughlin et al. [Global Planetary Change 39 (2003) 191–199]
I.A. Macdonald, C.T. Perry and P. Larcombe 333
Reply to the comments of Macdonald et al. on "Rivers runoff and reefs" [Global and Planetary Change 39 (2003) 191–199]
C.J. McLaughlin, C.A. Smith, R.W. Buddemeier, J.D. Bartley and B.A. Maxwell 339
